

15th IUPAC INTERNATIONAL CONGRESS OF CROP PROTECTION CHEMISTRY

New Delhi, India
14 – 17 March 2023

SPONSORSHIP AND EXHIBITION AVENUES

Welcome Message

Dear Sir,

Dear Madam,

We are pleased to inform you that Society for the Promotion of Sustainable Agriculture (SPSA), in association with ICAR-Indian Agricultural Research Institute, New Delhi (India) and Institute of Pesticide Formulation Technology, is proposing to hold **15th IUPAC International Congress of Crop Protection Chemistry on “Futuristic Approaches towards Seed to Market Strategies”** during March 14-17, 2023, New Delhi, India in the C. Subramaniam auditorium which is built in the heart of city, close to the center for Green Revolution in India, IARI, and can accommodate more than 1500 scientists interested in crop protection chemistry. We hope to see a galaxy of world-renowned speakers from academia, industry, government and many others. The congress will provide a forum for scientists from different disciplines, in academia, industry and other **areas** to discuss latest trends and discoveries in agrochemicals and phytomedicines, and to deliberate on important issues of agricultural research, presenting their views as policy inputs to the planners, decision/opinion makers at various levels. Participating at the Congress will give you the opportunity to broaden your network and to reach out to your fellow crop protection scientists.

The Congress is held every four years across the globe since 1967 and it will be the first time that this Congress is being held in India and Japan is the only country in Asia which has hosted this Congress previously. These IUPAC Congresses are organized by the Division of Chemistry and Environment's Advisory Committee on Crop Protection Chemistry, in collaboration with many national, international and global partner organizations. This Congress is attended by Chemists from all over the world working in the field of Pesticide Chemistry and which normally sees a gathering of more than 1500 attendees including Nobel laureates. This is next in series after the Ghent Congress in 2019.

The deliberations during the congress will encompass vital issues relating to the role of agrochemicals in crop production in general and crop protection, value addition and input use efficiency in particular. The congress will also offer insight into the latest developments of the relevant science and provide forum for interactions, among representatives of different disciplines from all over the world.

The emphasis of the 2023 Congress will be on **“Futuristic Approaches towards Seed to Market Strategies”** which is believed to be the most efficient way towards sustainable farming. Eight scientific topic areas will be selected. See the website www.iupac2023.in for details.

The IUPAC Organizing Committee is seeking sponsors to support the technical program, social events, awards, and travel support for scientists from developing countries. The following pages detail multiple ways of possible sponsorship packages. Contact us to discuss any of these opportunities, or to craft a custom package tailored to your needs.

Looking forward to seeing many of you in March 2023 in New Delhi!

Drs Najam Akhtar Shakil and Jitendra Kumar

Chairs of the Congress

Venue - Bharat Ratna C. Subramaniam Auditorium, NASC Complex, New Delhi

Exhibition

The exhibition will take place in the open spaces of the Auditorium, located on the ground floor. Coffee and lunch breaks will take place in the exhibition area.

Exhibitor badges

Exhibitors are required to make an exhibitor registration free of charge in accordance to the sponsorship level. They will receive exhibitor badges (which differ from the participant badges) with personal name and company name offering access to the exhibition only. Access to the coffee breaks, lunches and Welcome Reception is included.

Exhibitor badges do NOT give access to the lectures. These badges include catering, but exclude lectures. Additional badges can be ordered at 150 \$/badge.

Sponsorship Packages

You will agree that organizing such a large congress involves a lot of expenditure, which can only be met with the support of both government and private bodies. The success of the IUPAC 2023 Congress ultimately depends on the generosity of its Sponsors. Therefore, your support is essential for the successful organization of the Congress. Sponsorship of IUPAC 2023 will be a powerful marketing tool for your organisation and maximize your exposure. You will be able to connect to a significant number of crop protection specialists worldwide and ensure your place at the table, gaining relevant insights about the specific audience while increasing the impact of your organization.

Discover what the Congress has in store for you and boost the exposure of your organization.
